

Geek God

- Make sure the instance of mongoDb is running
- Run MongoDB
- Open the command prompt
- Go To Project Directory where **package.json** file is present
- **D:\GeekGod\GeekGod**
- To execute the project type **node server.js**

The screenshot shows a Windows Command Prompt window titled "Select C:\Windows\System32\cmd.exe - node server.js". The window displays the following text:

```
Microsoft Windows [Version 6.1.7601]
Copyright (c) 2009 Microsoft Corporation. All rights reserved.

D:\GeekGod\GeekGod>node server.js
(node:6040) DeprecationWarning: 'open()' is deprecated in mongoose >= 4.11.0, use
'openUri()' instead, or set the 'useMongoClient' option if using 'connect()' or
'createConnection()'. See http://mongoosejs.com/docs/4.x/docs/connections.html
#use-mongo-client
(node:6040) DeprecationWarning: Mongoose: mpromise (mongoose's default promise l
ibrary) is deprecated, plug in your own promise library instead: http://mongoose
js.com/docs/promises.html
```
